

EDUCATION

Galgotias University Bachelor of Technology (B.Tech) in Computer Science and Engineering GPA: 7.3	Greater Noida, Uttar Pradesh July 2023 - May 2027
Modern Public School CBSE Class XII 73.2 %	Motihari, Bihar May 2019 - June 2021

SKILLS SUMMARY

- **Full Stack Development:** React.js, Node.js, Express.js, RESTful APIs, Python (Flask), Java (Spring Boot)
- **Front-End Development:** HTML, CSS, JavaScript (ES6+), Tailwind CSS, Responsive Design
- **Back-End & Databases:** MongoDB, PostgreSQL, Firebase, SQL
- **Mobile Development:** Kotlin, Android Studio, Gradle, Jetpack Compose
- **Tools & DevOps:** Git/GitHub, Postman, VS Code, Docker Basics, AWS (EC2/S3), Figma

WORK EXPERIENCE

Google AI-ML Virtual Internship AICTE - EDUSKILLS • Developing machine learning models using TensorFlow and Python, focusing on data preprocessing for real-world datasets. • Implementing NLP and computer vision workflows, including hyper-parameter tuning, to optimize model accuracy.	April 2025 - Ongoing
Google Android Development Virtual Internship AICTE - EDUSKILLS LINK • Designed and deployed Android apps using Kotlin and Jetpack Compose, integrating Firebase for real-time data and authentication. • Integrated RESTful APIs to fetch and display dynamic data, and applied Material Design principles for user-friendly interfaces.	January 2025 - March 2025
Retail Operations & Technical Support Assistant AMIT WATCH SHOP • Transitioned business online by developing an e-commerce platform via React.js and Firebase, increasing customer reach by 35%. • Built an Excel-based system for real-time stock tracking, reducing manual errors by 25%.	September 2024 - December 2024

PROJECTS

ReelView: Movies Review App Kotlin, Compose, TMDB API LINK • Built a movie browsing/review app for Android, and iOS using Kotlin Multiplatform and Compose, sharing 90%+ code reuse. • Integrated TMDB API for real-time movie data and integrated Ktor, Koin DI, and Jetpack Compose to create responsive UIs.	March 2025
Flipkart Clone: FullStack E-Commerce Platform React, Node.js, MongoDB LINK • Built a scalable Flipkart-inspired platform with JWT authentication, admin dashboard (user CRUD), and real-time inventory tracking. • Integrated Paytm payments, Cloudinary media uploads, and SendGrid emails, achieving high order success rate in testing.	July 2024

CERTIFICATES

Postman API Fundamentals Student Expert POSTMAN LINK • Earned by demonstrating proficiency in API testing, scripting, and RESTful workflows (GET/POST/PATCH/DELETE). • Applied skills to integrate third-party APIs (e.g., TMDB, Firebase) in projects like ReelView and Flipkart-Clone.	February 2025
Participant, 6th Technovation Hackathon SHARDA UNIVERSITY LINK • Collaborated with a team to design an AI-driven fraud detection prototype using Python and TensorFlow • Explored real-world applications of machine learning for fraud prevention, including data preprocessing and model training.	January 2025
100 days of Python Expert GUVI GEEK NETWORK LINK • Completed an intensive Python programming course covering core concepts, data structures and real world problem-solving skills.	June 2024

HOBBIES

- Competitive Coding** - Solving problems on LeetCode / HackerRank to sharpen algorithmic thinking.
- Photography** - Capturing moments with a keen eye for storytelling and editing visuals using tools like Adobe Photoshop.
